March 3 & 4, 2018
Novi, Michigan

Continuity Resistance Balancing®

Own the knowledge and expertise of Symptom Picture, Diagnosis, and Treatment for 7 commonly seen clinical pictures by using Continuity Resistance Balancing®!

Whether or not you presently use muscle testing, you will leave this seminar with working knowledge of Continuity Resistance Balancing® to begin testing patients on Monday morning.

This seminar consists of a workshop concept of muscle testing mixed with nutritional protocols, physical medicine techniques, and practice building tips. In this seminar, CRB® will be taught in a straightforward and uncomplicated format.

Saturday's seminar agenda includes in depth exploration into 7 conditions: Gate Reflexes, Primary and Secondary Restrictions, Hypochlorhydria, Adrenal Fatigue, Portal System, Heart/Brain Connection, and Lymphatic Congestion.

On Sunday a recap with Q & A from the Saturday program, as well as, a workshop format emphasizing testing and treating protocols utilizing muscle testing and chiropractic adjusting procedures.

This seminar is for those who want innovative ways to implement or utilize nutrition in their practice!

CEU's applied for by :

Logan College of Chiropractic
12 Hours Applied for MI, IN, OH, & IL

Also Sponsored by M.A.C. and Applied for MI DC's:
2 hours-Diagnostic Testing
1 Hour-Pain & Symptom Management

Dr. James Perkins D.C., N.D. is a 1983 graduate of Palmer College of Chiropractic and is the founder and clinical director of Alternative Health Solutions, a multi-disciplined clinic of natural healers. For 33 years his primary technique has been muscle testing, his primary emphasis is on holistic wellness and medical risk avoidance through his own developed technique, Continuity Resistance Balancing®. His accomplishments can be seen in Heritage Who's Who in Executives and Professionals.

Go to my-alternativehealth.com and YouTube Alternative Health Solutions videos for more information.
